Province of Ontario by one member. The Municipal government of the county consists of twenty-four members elected by the different Municipalities and composing the body known as the County Council. Ontario is justly regarded as one of the first Agricultural counties in the Province. Of its area—estimated at 360,000 acres—there are upwards of 210,000 acres cleared and under cultivation, about 150,000 acres being under crop and the remainder devoted to pasture. The soil is rich and fertile, and very productive. Large quantities of Wheat and Barley are raised annually, and the superior quality of the grain commands the highest market prices. It is perhaps on this account, as well as owing to the superiority of its excellent Harbour and superior shipping facilities, that the town of Whitby is noted as a grain market, where, during the past few years, higher prices have been paid for Wheat and Barley than in that of even the City of Toronto. The bulk of the population, numbering about 45,000, are Agriculturists. There are, however, a large number of manufacturers, merchants and traders. The principal manufactures are flour and lumber, but there are also a large number of woollen mills scattered over the county in which a large business is carried on. The splendid Joseph Hall Foundry and Agricultural Works at Oshawa, and the Foundry and Agricultural Works of Brown & Patterson, at Whitby, each giving employment to a large number of men, the number of hands employed in the former being over 200, and the works are the most extensive of the kind in the Province. Whiting's Agricultural Implement Manufactory is also situated at Oshawa. Ontario possesses a large number of churches of various denominations; large sums are devoted by the different municipalities to the interests of education, and the county possesses some of the best Grammar and Common Schools in the Dominion. There are five newspapers published within the county, two at Whitby, and one in each of the villages of Oshawa, Port Perry and Prince Albert. The county of Ontario is also remarkable for the number of thriving villages scattered in every direction throughout its length and breadth, and the almost total absence of outrage and crime within its borders.

One great means which must serve most beneficially in the future development of the resources of the county, and advancing its material prospects is the construction of the contemplated lines of Railway, for which charters have been obtained. From Whitby Harbour, and the Grand Trunk, which passes over the Southern extremity of the country, the Whitby and Port Perry line is designed to run northerly through the centre of the township of Whitby, turning east to Port Perry, with a branch to Uxbridge, the line to be constructed to Beaverton, on Lake Simcoe. The portion of the line to Port Perry is already under contract, and the work partially commenced. And \$10,000 have been granted as a bonus by the township of Reach for the branch to Uxbridge.

The next is the Toronto and Nipissing line which is designed to cross the township of Uxbridge to Uxbridge village, thence in a north-easterly

direction through Brock. Uxbridge has voted a bonus of \$50,000 towards the construction of this line.

The third is the continuation of the Port Hope line from Lindsay to Beaverton, which will enter Thorah on the east side passing north-west-erly through it, to Beaverton. Already work has been commenced on this extension. With these advantages, and aids to the development of its resources and trade, the people of the county of Ontario—its Agricultural and enterprising merchants, have good reason to look proud and hopefully to the brilliant future of their fair county.

BEAVERTON,

A Police village in the Township of Thorah, 41 miles north-west of Whitby, lying on the eastern shore of Lake Simcoe at the mouth of the Beaver River, was first settled by Mr. Donald Calder, in 1828. The first store was opened by Mr. Kenneth Cameron, in 1830. The first Post Office was established in about the 1835, Mr. James Ellis being the first Postmaster.

The village contains only one Church edifice, although a short distance out of it, the Roman Catholics and the Scotch Presbyterians each have a church—the former of which was built of wood, in 1855, and the latter of stone in about 1844. Within the village the Canada Presbyterians have built one of wood, in 1847, at the cost of about \$1000. The Wesleyan Methodist body, at present holding service in the Orange Hall, are preparing to build in the spring of 1869. The prominent buildings are the Orange Hall, built of wood, in 1865, at the cost of about \$800 and occupied by Lodge No. 798. The Town Hall, also of wood, built in 1846, at about the same cost, a Schoolhouse, a Flour Mill, a Saw Mill, a Woolen Mill, two Tanneries and a Furniture Factory. Also several stores, three hotels and the usual number of tradesmen. It is connected with Whitby by daily stage, and during the summer, with Orillia and other places by the steamer *Emily May*. Daily mail and money order office. Population about 700.

A STANDARD ARTICLE.—DR. FOWLER'S EXTRACT OF WILD STRAWBERRY.

This valuable medicine has for a number of years been associated with the Canadian public, and each successive year it is becoming more popular and more generally sought for, and, in consequence, is acknowledged by the majority to be the leading medicine of the day. For those prevalent diseases, viz.: Summer Complaints, Cholera Morbus, &c. It is often used with splendid success in the cure of canker, sore mouths, &c. It is a perfectly reliable article, compounded on scientific principles from the genuine strawberry plant, and containing astringent, tonic, antispasmodic and antispastic properties. No family should be without it.

**BROOKLIN,**

### LIVER COMPLAINT.

There are very many persons who do not enjoy the blessings of a healthy liver. It has become a very prevalent disease. To such we would advise to try the efficacy of the NATIONAL PILLS: they act on the secretions of that organ, will tone, strengthen, and restore it to healthy action, thereby eradicating disease. See circulars accompanying each box.

**PRICES TO SUIT THE TIMES.**

**THE GREAT ECLIPSE OF 1869.**

It is an astounding fact that "Dr. Boyer's Galvanic Fluid" for the alleviation of pain, is used with astonishing effect in all cases of Rheumatism, Neuralgia, Headache, Toothache, Swellings, Bruises, Frost Bites, &c. For an external application we recommend it as having no equal. One trial will convince the most sceptical. Don't let unjust prejudice interfere and prevent you giving it a fair and impartial trial. It is better to apply the best first and save unnecessary pain and anguish. For horses it is a splendid success being superior to many Black or Gargling, Oils now in use.

**OSHAWA.**

A village in the township of East Whitby, three miles north of Sydenham Harbor on Lake Ontario. It is a station on the Grand Trunk at which all passenger trains stop. It contains several large stores, some of which are as large as any in the county. The place is noted for its manufactories, containing as it does the large foundry and agricultural works of the late Joseph Hall, which are the largest in the Province. It also contains Whiting's celebrated hand agricultural implement factory, besides three grist mills, three tanneries, two steam cabinet factories and several smaller works, all of which give employment to a large number of hands, making Oshawa a place unsurpassed in the Dominion for its size. The civil and military organizations are: two volunteer infantry Cos., two brass bands, one engine Co., and a Masonic and two Orange lodges; also one division of the Sons of Temperance. The churches are an English, a Roman Catholic, a Wesleyan, Episcopal, Primitive Methodist, a Christian and a Bible Christian, a Presbyterian and a Baptist. The schools are, a grammar and common united, besides several private ones. The village also boasts of several fine hotels. Daily mail. Distance from Whitby 4 miles, Toronto 33 miles, and Montreal 300. Population about 3,000.

## PORT PERRY,

A village in the township of Reach, lying at the head of Lake Scugog, 18 miles north-east from Whitby, was first settled by Mr. Williams, about 1830. The first store was opened by Messrs. C. Draper & Co., in 1845. The Post office was established in 1852, Mr. Joseph Bigelow being the first Postmaster. The churches are, one English, built of brick, in 1867, at the cost of about \$2000. One Episcopal Methodist built of wood, in 1856, at the cost of about \$1000. One Baptist, built of wood, in 1867, at the cost of about \$2000. One Presbyterian, built of wood, in 1867, at about the same cost. The manufacturing interests are represented by one combined Foundry and Agricultural works, one grist mill, one steam cabinet factory, one planing mill, sash and door factory, one woollen factory, one stave and heading factory, manufacturing 900,000 staves and 600,000 heads per year. Three gang saw mills unitedly turning out some 5,000,000 feet of lumber yearly, two shingle factories manufacturing 4,000,000 bunches yearly. The Royal Canadian Bank has also a branch here under the able management of Mr. Joseph Bigelow. The village also has a Lodge of Good Templars, a brass Band, Mr. John H. Maw, leader, a united Grammar and Common School, employing four teachers. Several large general stores, two hotels, and a large number of wagonmakers, blacksmiths, &c. Population about 900.

### TRUTH STRANGER THAN FICTION !

But not stranger than the fact that the National Pills are a delightful and perfect purgative, they cleanse and purify the blood, act like a charm on the liver and reinvigorate the system, in general causing the patient to feel that life has still its charms—no more despondency, but a healthy and active flow of spirits. They are mild and searching—try them and be convinced.

## PRINCE ALBERT.

A village in the township of Reach, about 17 miles north-east from Whitby, was first settled by Mr. A. Hurd, sen., in 1824. The first store was opened by Messrs. P. Hurd & Co., in 1833. The Post office was established in 1836, Mr. J. Leach being the first Postmaster. At present it contains one military and two civil organizations, viz.: one volunteer infantry company, No. 5, Ontario battalion, Captain John Billings. One masonic lodge, No. 183, one orange lodge, No. 569. The churches are the Wesleyan Methodist, built of brick, in 1866, at the cost of about \$3500. The Bible Christian, built of wood, in 1862, at the cost of about \$1000. The united Presbyterian, built of wood, in 1859, at the cost of about \$1500. The English have no building of their own, but they hold service every alternate Sabbath morning in the Presbyterian church. The other buildings of note are the Prince Albert Public Hall, built of wood by a joint stock company in 1863, at the cost of about \$1500. A company drill shed, built of wood in 1866, at the cost of about \$850, located on the North Ontario agricultural society's grounds, which have lately been enclosed at an additional cost of some \$400. A school house, several general stores, two hotels, and a number of mechanical representatives. There is also located here Tomlinson's patent medicine factory, for the manufacture of his celebrated medicines. Connected with Whitby, Oshawa, and all places north by daily stage. Post and money order office. Daily mail. Population about 800.

## THE SECOND GREAT DISCOVERY OF THE AGE.

When Columbus first discovered America it was considered the first great discovery, but when the National Pain Remover was introduced to the admiring public it was admitted to be the second and best discovery of the age. It is a purely vegetable preparation, prepared with great care and on purely scientific principles. Used both internally and externally.

## TORONTO AND NIPISSING RAILROAD—GREAT MASS MEETING.

The object of which was to decide which is the most feasible, the broad or narrow gauge, and the unanimous decision of the meeting was that the National Pills are the best gauge to health. They are a delightful and perfect purgative, they will give you a smooth skin, a rosy cheek, a sweet breath and a healthy constitution.

## UXBRIDGE,

One of the smartest and most enterprising Inland Villages in the Province, is situated in the township of the same name, and surrounded by an excellent farming country. It is about 22 miles north-west of Whitby, to which place it is connected by daily stage, and upon the completion of the Toronto and Nipissing Railway, it will be one of its most important stations. With these various advantages, combined with its excellent water power, it is destined at no distant day to be a place of great importance to the North Riding of Ontario Co. It was first settled about the year 1817 or 1818 by Mr. Thomas Hilborne and Mr. Joseph Collins, the latter of whom, shortly after, built a grist-mill which, in those days, was an undertaking requiring both energy and enterprise. The first store was opened by Mr. Carlton Lynde, about the year 1830, and the first Postmaster was Mr. Joseph Bascom, sen. With its flour, grist and saw mills, woolen factory, steam cabinet works, sash and door factories, foundry, tannery, and several large general stores, hotels, &c., constantly giving employment to a large number of hands, besides furnishing an excellent market for the surrounding farmers. A person of twenty years ago would be loath to believe, it was the same place to day, or that so much could have been done in so short a time. But nevertheless here they are, forming, as they do, a monument to the liberal enterprise and energy of the men of north Ontario. The civil societies are represented by a Sons of Temperance Division, No. 139, and the military spirit is shown by a Volunteer Infantry Co., No. 7 Ontario Battalion, Capt. Robert Spears, and the musical talent is developed by an excellent Brass Band, under the able leadership of Mr. A. D. Weeks. There are also a number of Churches, viz: One Church of England, built of wood in 1852, at the cost of about \$1,200; one Roman Catholic, built of brick in 1866, at the cost of about \$1,400; one Methodist Episcopal of wood, erected in 1867, at the cost of about \$1,200; one Wesleyan Methodist also of wood, erected in 1854, and greatly enlarged in 1867, entire cost about \$2,200; one Regular Baptist, built of wood in 1861, at the cost of about \$1,200; one Bible Christian of wood, erected in 1862, at the cost of about \$800. The Presbyterian body are about to build, but at present they hold service in the Ontario Hall, a fine large Public Hall recently built of wood, at the probable cost of \$1000. The education of the young is not neglected, as there is a Grammar and three Common Schools, employing 4 teachers. Daily Mail. Population about 1000.

## WHITBY,

An incorporated town in the township of Whitby, is situated on Lake Ontario, and possesses one of the finest harbours on its north shore. The Grand Trunk Railroad has a station here, at which all passenger trains stop. Being the County Town, it contains the usual buildings, Court House, Jail, &c. It also contains several Churches, viz:—Two English (All Saints and St. John's); a Roman Catholic; a Canada Presbyterian; a St. Andrew's Presbyterian; a Wesleyan and Primitive Methodist, and a Congregational. The schools are a Grammar and two Common. The civil societies are represented by the South Ontario Agricultural Society; the Whitby Branch of the Bible Society; a Mechanics' Institute, a Masonic Lodge, No. 30; an Orange Lodge, No. 130; a Sons of Temperance Division, No. 310; a St. Andrew's and a St. Patrick's Society. The town also has two Brass Bands; one Engine and Hose Co.; two Volunteer Infantry Companies, Capt. M. O'Donovan and Capt. G. H. Dartnell, (Nos. 1 and 4 Ontario Battalion). The Montreal Telegraph

# PATENT PLASTIC SLATE, FOR ROOFING AND OTHER PURPOSES.

W. O. Buchanan, Manufacturer, Montreal.

The existence of a great public want is appropriately met by the discovery of Plastic Slate for Roofing and other purposes, the result of 14 years experimenting.

Since 1854 it has made rapid progress in public favour in the United States, and is now introduced into Canada—tested beyond any contingency of circumstances—as being the best, cheapest and most durable roofing material yet discovered.

Plastic Slate Roof is made from a mixture of Slate Flour and Coal Tar, spread with a trowel or brush upon layers of saturated felt. It solidifies by solar heat, and becomes real slate again without any change in its dimensions.

*A Mastic*—It adapts itself to every shape and condition.

*Adhesive*—It needs no nails or hooks to attach it; is entirely free from dip and the other disagreeable characteristics attending the use of the common pitch and gravel roof.

*Impervious*—Neither water nor even steam can penetrate or dissolve it.

*Non-expansive*—Heat or cold, no matter how intense, can compel it to expand or contract one jot.

*Undecaying*—Time and the elements only mature and perfect it.

*Repairable*—"A little more of the same sort," and a brush or trowel restores it from accidental injuries.

*Non-combustible*—You may kindle a fire upon a new roof, you may ignite the oil and burn it out, but you only petrify the slate and it remains intact. You cannot ignite anything through the slate unless it gets red hot. The oil being once evaporated, there is nothing to burn; therefore an old roof is fireproof. But even the new mastic will not burn by itself, nor the oil burn out of it, without being in close contact with other combustible matter giving off intense heat.

*Lightness*—It is lighter than tin or any other material used, and will thus save necessity of such heavy timbering, which adds so largely to cost of building.

Cost is about the same as good gravel roofs.

It is admirably adapted for repairing old leaky roofs, whether of shingle or tin; is largely applied as a paint for covering old roofs, can be used for every style of roof, flat or upright, covering upright walls, cement for water troughs, damp cellars, &c., &c., &c.

The reported sales of last year in the Northern States amounted to over 250,000 squares, and so universally approved is it that this year more than double that amount will be laid. It is fast finding favour in Canada West—Cobourg, Port Hope, Toronto, &c. It is already used on some of the finest buildings in New York and Boston and the Western cities. The new Hudson River Depot, now building in New York, is to be covered with it. JOHN AGNEW, Agent, Whitby, from whom every information can be had.

and Canadian Express Cos. both have offices, and the Royal Canadian and Ontario Banks, each have a branch office here. There are also two weekly papers published in the town, the *Whitby Chronicle*, W. H. Higgins, Editor and Proprietor, and the *Whitby Gazette*, G. H. Ham, Editor and Proprietor, both of these journals have a large and extensive circulation throughout the Province. There is a large amount of mercantile business done, and as a market for all kinds of produce (especially grain), it is hardly surpassed in Canada. The town also contains several first-class Hotels. Distance from Toronto, 30 miles, and from Montreal, 303. Daily mail and money order office. Population about 3000.
